Commissioners of Charities Take .Prempt Action in the Case.

There is considerable disaffection amon the relatives and triends of the patients taken to Gouverneur Hospital from the scene of yesterday's panio in the Luciow Street

Synagogue building. In one instance particularly this disaffeo tion has been given expression to in the shape of an amount made by Samuel Friedman, one of the sons of Renecca Friedman, or 77 Ludlow street. Here is the amdavit:

One More May Die. None of the injured at Gouverneur Hospita are yet dead, and the only one that is in a very

At the Eldridge street station-house it was said that in all likelihood no arrests would be

The four bodies of those killed during the panic have been taken to their homes, from where they will be buried.

Loud wailing can be heard in almost every

quarter within a radius of three blocks of where the panic occurred. Most of the families of those who were

killed or wounded were inter-related, and the loss of one entails the sorrow of a great many individuals. One of the saddest places was the home of Mrs. Rebecca Friedman, whose fifteen-yearold daughter Lens was wailing this morning

ad in the midst of many neighbors who were consoling her.

The girl had read in a morning paper that

her mother could not recover.

An Eventus World reporter who had just called at the Gouverneur Hospital told Lens that her mother was declared out of danger A great many people were this morning visiting at 27 Ludiow street, where the panic

occurred. Few pass by without a shudder. Been by an Evenine World reporter this morning, Dr. Donovan was at first disposed to treat the matter jocosely, saying:
